GOVERNMENT OF INDIA.

LEGISLATIVE ASSEMBLY DEPARTMENT.

The following Report of the Select Committee on the Bill to provide for the raising of the export of tea from, and for the control of the exportation of tea in, British India was presented to the Legislative Assembly on the 12th February 1916—

With the endorsement, members of the Select Committee to which the Bill to provide for the raising of the export of tea from, and for the control of the exportation of tea in, British India was referred, have considered the Bill and have upon the same in relation to the tea export, with the Bill as amended by the several clauses.

1. Clause 8—In substance it provides for the raising of the export of tea from the several tea gardens in British India, and for the control of the exportation of tea in, British India.

Change 8.—We have substituted *Agents* elected by the Indian Agents of the United Provinces by the Central Government as the holder of appointment of the members of the Committee specified in paragraph (b) and (c), and have made provision in clause 20 for defining the manner in which the election shall be held. It was desired that we have provided for representation of minorities in the Indian State of Mysore, and in the Chitragpur Hill Tracts and Chitragpur district. We have also made provision for the appointment of a whole-time assisted Chairman. We consider that the existing scheme likely to fall on the Committee under the existing conditions is a just scheme, and the general satisfaction and approval in law will come, it is believed, the parties of interest likely to have the subject of appeal under clause 1 (3) of the Bill.

Change 9.—We have substituted a definite period of two months for the expression "a reasonable time" and have added a consequential reference to section 3.

Change 10.—The change is consequential on the provision made in clause 3 for a permanent assisted Chairman.

Change 11.—We have made no change in this clause, but we consider and we considered that it will be the practice as far as possible that the members employed in investigating the compensation of the members for the purpose of assessing quotes shall be persons with knowledge of local conditions.

Change 12.—We have provided for the publication of an annual report by the Committee. We have inserted in sub-clause (3) the words "as the Government of the Commission" as a body maintaining the choice of members by the Central Government.

Change 13.—The changes made are consequential on the changes made in clause 3.

Change 14.—We have amended sub-clause (2) to provide that a portion of a fee shall shall not be the right to a quota merely because it may have been assigned from the parent estate, and we have inserted the words of law which shall possess the requisite qualifications to receive a quota as specified.

By an amendment of sub-clause (3) read with the Schedule which we have inserted in the Bill we have defined the general principle to be followed in assessing the crop area of an estate for the purpose of assigning an assessed quota, and have limited the matters which may be provided.

We have added a new sub-clause giving a right to certain circumstances to have the crop area of an estate reassessed.

Change 15.—The change made in sub-clause (3) is designed to draw attention to the fact by providing that members shall be made only by means of the estate.

Change 16.—We have ordered the chairman proposed for Mysore has been two years ago and have made a consequential addition in view of the provision inserted in clause 14 (3).

Change 17.—The addition is consequential on the change made in clause 14 (3) and the introduction of the Schedule.

Change 18.—We have substituted the clause relating to the transfer of section 21 of the Act of 1935, and adding a provision relating to the transfer of the International agreement Bill.

Change 19.—The change made is consequential.

Change 20.—We have inserted the word "knowingly."

Change 21.—We have added a provision intended to validate any action, such as sending notification for quotes and assessments and issuing orders, which the Mysore Tax Revenue Committee may have taken in advance of the commencement of the new Act with a view to the submission of quotes under that Act when it comes into force.

3 The Bill was published in the Gazette of India, dated the 18th October 1935.

4 We think that the Bill has not been so altered as to require re-consideration, and we recommend that it be passed as now amended.

MINUTES OF BUSINESS

1. Clause 2, sub-section (2).—One member should be added to represent labour in the estates and one more member should be added to the Committee to be elected by means of small tax estates who have not been represented either by election or nomination in this clause. The Chairman of the Committee should be elected by the members of the Committee as was provided in the Act of 1923 and was now provided in clause 5 of this Bill.

2. Clause 3, sub-section (1).—The Independent Tribunal for hearing appeals against orders of the Committee under clause 1d and clause 1d, 2d and 3d should be set up as three sub-committees in succession, of every term of estate in which the majority which a law estate can be elected is subject to determination.

3. Clause 4.—Provision should be made that an annual report be published by the Committee on the year's working, with abstracts of business and made available to the members of the general Legislature.

4. Clause 14, sub-section (b) and the Statute created Amendment.—Special allowance should also be given to small estates.

5. A. Clause 16, sub-section (1).—Provision should be made for representation of all owners of tea estates in India in the International Commission.

6. Clause 16, sub-section (1).—Provision should be made for representation of owners of tea estates in India in the International Commission. We are emphatically of opinion that the powers reserved to the Committee under sub-section (c) and (d) are sufficient. The old Act did not require such provisions.

M. THEERATHA RAU.

I am against the proposition of a Chairman by the Ceylon Government. The Committee should appoint a Chairman from its members. The Committee did in the former Ceylon Act and it seemed very satisfactory and it must not be changed.

I am glad that the Central Government should appoint a Tribunal from time to time to hear appeal from the orders of the Commission under section 24.

I also like that no prohibition need be taken from the Commission for issuing warrants. Under the existing Act no such provision is necessary and I think this should continue.

ANDREW KENNEDY CHAMBERS.

The following Report of the Select Committee on the Bill further to amend the Workmen's Compensation Act, 1927, for certain purposes was presented to the Legislative Assembly on the 14th February 1930:—

We, the undersigned, members of the Select Committee to which the Bill further to amend the Workmen's Compensation Act, 1927, for certain purposes was referred, have considered the Bill and have now the honour to submit this our Report, with the Bill as amended by us several clauses.

§ Clause 3.—In the proposed amendment of subsection (1) of section 15 of the present Act we have extended the period within which a claim for compensation with respect to an accident may be preferred from six months to one year to accord with the general period of limitation in actions for tort. We have placed the word "accident" in the word "accident" throughout the section, and we have omitted the employer for the management of any branch. We have omitted the second amendment proposed to the third period, as the suggestion as to whether that, particularly in view of the extension of the period within which a claim may be preferred, the amendment is unnecessary.

Clause 4.—Under the present Act, 1927, certain certificates can be granted temporarily by an authorized medical practitioner subject to regulations, while those made by the existing surgeons also which would they ought to be valid. We have made a small change in proviso inserted certificates being accepted as conclusive proof.

Clause 5.—We have substituted the word "appears" for the expression "is proved" in order to make it clear that the provisions of section 15 of the Act, which allow any appearance before a Commission to be made by a legal practitioner or other person authorized by a party intended to appear, apply to the proceedings contemplated by the present, and that physical presence is not essential.

Clause 11.—The words omitted by us have the effect of extending the benefits of the Act to all persons who are exposed to the dangers of the scheduled operations. We have also inserted words to include the tapping of punctures in the schedule as we thought it a hazardous occupation.

Clause 12.—We have added "Following by certain cases" to the list of occupations deemed to be included in Part A of Schedule B. This we considered a strongly justified as most of the persons directly concerned as an occupational disease.

5. The Bill was presented to the Governor of India, dated the 19th August 1930.

6. We think that the Bill has not been so altered as to require republication, and we recommend that it be passed as now amended.

MINUTES OF DEBATE.

We do not agree with the amendment made in clause 8, whereby the period of notice has been extended to a year. The provision as it stood in the bill was a definite encouragement to the mining firm, and would have been repeated in amendment. We are not in favour of the change made by the Select Committee of subsection (1) (a) of clause 8.

H. P. SMITH,
P. E. JAMES.

While agreeing with the majority report, we have to state that this work "as having been an advisory line, substantially limited to follow his instructions," introduced into the bill and agreed to by the majority of the Committee are not at all calculated to benefit workers. The additional condition is very hard to be satisfied by workers and we are sure that quite a number of workers who may be others as previously qualified for obtaining compensation may have to be denied the much needed compensation simply because the conditions given by the medical practitioners are not considered and, easily so, be incompetently and adversely affected as the medical practitioners come to be prejudiced against such workers owing to the failure of workers to pay adequately or regularly of other liabilities, not including the payment of some overpayment employees.

We also deplore the failure of the Committee to agree to amend the words "otherwise than as a result of accident" in item one of Schedule II. There is now a large number of people who are excluded from the benefit of this Act on the ground that they are not workers but clerks. Many workers suffer up to the 100 per centum and brought within the scope of the Workmen's Compensation Act, we had to see why clerks who may not be getting more than 2s. 10d. are kept excluded from the benefit of this Act. It is quite conceivable that some clerks may have to be treated in an accident amounting to a minor, in the course of employment of a firm or a vehicle propelled by steam or other mechanical power or by electricity and because of their incapacity to carry out the work of the firm or of the vehicle, they are excluded from the benefit of this Act, and in general they are not obtaining compensation for the injuries received in such an Act.

Lastly, while welcoming the addition of compensated air blown or its impurities and poisoning by lead, arsenical and poisoning by arsenic fumes to the list of diseases, the composition of which is made a basis for compensation, irrespective of the period of employment of a worker under an employer, we cannot but deplore the omission of including the same in and section 3 (1) of the Act, that denotes some diseases, the removal of poisoning by its impurities, primary tuberculosis, cancer of the skin, pyoderma, urticaria, due to (a) in dust and other (radio-active) substances (b) X-rays and also developing a minimum of six months' continuous employment under a particular employer shall be isolated upon to enable a worker for compensation. We think the English practice, introduced in section 3, subsection (1) (a) of making the employer in whose service the worker has spent definite limits of time, and the minimum and then holding all those conditions who during the said twelve months employed the worker, as the employer in the event of which the disease was due. Subsection (1) is made in the manner from whom compensation is recoverable such consideration as to details of agreement, may be determined in the schedule under this Act for setting the amount of the compensation. It is not necessary to say the employer who has to be only partially responsible for the maintenance of the disease by the worker is protected. Hence while the worker who has to suffer the first consequences of the contraction of such a dangerous disease is assured of full compensation by the statute enacted. We, therefore, trust that necessary steps will now be taken by Government, to remove this gross and real danger in the welfare of labour. In many other respects, this Act needs amendment, we need only mention a few of them from the numerous suggestions of the scope of this Act, the

word used for the substitution of (b) of sub-section (1) of section 3 which, having application that notice between a worker and employer, as has been described, arising from any employment or agreement relating thereto, he need not be paid for compensation. Let it be remembered that such a condition does not obtain in the British Act, which extends to every twelve millions of workers, in addition to those ten millions covered by our Act. The Government, upon the Government to introduce a more comprehensive amendment (b) is an early date.

STATEMENT OF OBJECTS AND REASONS

The purpose of this Bill is to give effect to certain agreed understandings arrived at the recent Conference of Federal Representatives, with reference to section 115 of the Government of India Act, in respect of certain of the stamp duties referred to in that section of the Federal Legislative Act.

2. The proceeds will take three parts:—

(a) Island bills of exchange.

In accordance with a stamp recommendation from the Revenue Board of India and with the unanimous opinion of Government and all other officials concerned, the duty on such bills of exchange of all areas other than the island areas (and not payable as provided in the Bill) will be levied and collected by the Provincial Government. The revenue will be paid to the island areas in full both direct to British India and payable to British India.

(b) Bills of lading and bills of exchange of more than one year's tenor.

In the more important Provinces, the total bill duty on the stamp Act has been reduced by local legislation. This is due to major changes in Bombay and Madras, and cannot be removed as such because of the operation of section 115(2) of the Government of India Act. The existing arrangements are not uniform but it is not difficult to fix suitable uniform rates based chiefly on the rates in force in the Provinces in which the great majority of the bills to the endorsement of the rate from a stamp, the rate bill duty in the Indian Stamp Act, for 10 years, which is the rate now in force in Bombay and Madras. The duty on bills of exchange of

more than one year's notice now payable on the fractional rate for "leaves". For the purpose of calculating a minimum rate, the minimum rate now in force is thought to be more suitable, but agree very closely with the minimum rates in force in Madras, Bombay, the Punjab and Assam.

(d) Charges and bills of exchange payable as demand.

The duty on these (formerly one month) was abolished by the Indian Finance Act of 1917 in connection with the object of increasing the duty of banking. It is now thought that the minimum has been fixed and it is likely to have, on a proportionate effect on the requirement of banking and that the loss of revenue to the Treasury has not been justified.

Section 122 of the Government of India Act last of date, says the stamp duties mentioned in the Federal List shall be levied and collected by the Government but that they are generally treated as so far as they represent payments attributable to (but Government) Exchanges, shall be treated to the Province and shall be distributed among them in accordance with such principle of distribution as may be furnished by Act of the Federal Legislature. It is proposed to fix ground revenue (which is absolutely an income tax, pending any legislative meeting of the Council in the Federal List) that two principles of distribution shall be adopted, viz. —

(i) In respect of bills of exchange and bills of lading, which are an integral part of the duty, although the rates will be in some extent varied, what may be called the duty on the principle, viz. that the duty is collected in a Government Province shall be retained in that Province and it referred to a Civil Commissioner's Province shall be Central revenue, and

(ii) In respect of stamps, the duty on which will be a new tax, the principle which the Government of India (Distribution of Revenue) Bill, 1930, applies to the disposal of income tax, viz. distribution in accordance with the principle prescribed in that Bill.

For the sake of convenience, it is proposed that the principle of the duty on bills of exchange payable as demand (the amount of which is not likely to be considerable) should be dealt with in the same way as those of the duty on other bills of exchange, although the duty is also a new one.

4. The proposed changes as far as they relate to charges and bills of exchange payable as demand are to have effect from 1st July 1933, before the expiry of which period the principle of distribution laid out is to be discussed and have to be further considered.

Amended
of section 12,
Madras Act
V of 1930

5. In section 15 of the said Act, after the word and figure "sections 5", the figure and letter "8-A," shall be inserted

STATEMENT OF OBJECTS AND REASONS

Sections 9 and 11 of the Madras Suppression of Immoral Traffic Act, 1930 (Madras Act V of 1930), contain certain provisions for the punishment of persons and others who induce women or girls to become, or are otherwise responsible for their becoming, prostitutes. Experience of the working of these sections has revealed that it is extremely difficult to obtain sufficient evidence to sustain a successful prosecution. To remedy this defect, it is proposed to relieve living on the earnings of prostitution an offence and to shift the burden of proof on to the accused if he is shown to be living with or habitually in the company of a prostitute or to be directing her movements. The mother and the children of a prostitute will not however be liable to punishment unless they are proved to have aided, abetted or accepted her prostitution. A special exemption has also been made in the case of close relatives of persons belonging to castes and communities which are accustomed to dedicate girls to temples, as the new provisions will cause considerable hardship to them.

2. Offences under the Act are not cognizable as the Act now stands and consequently much difficulty is felt in securing trustworthy and genuine evidence for the prosecution. The proposed amendments to sections 13 and 14 of the Act remedy this defect, while at the same time presenting any possible abuse of power by the Police by entrusting the new powers only to Police officers of and above the rank of Inspector.

E. RAMAN MENON.

BE to be introduced in the Legislative Assembly
of the Province of Madras.

Under the proviso to rule 73 of the Madras Assembly Rules, the following Bill, together with the Statement of Objects and Reasons, is published for general information:—

A Bill further to amend the Indian Tolls Act, 1851, in its application to the Province of Madras and the Madras Motor Vehicles Taxation Act, 1931, for certain purposes.

WHEREAS it is expedient further to amend the Indian Tolls Act, 1851, in its application to the Province of Madras and the Madras Motor Vehicles Taxation Act, 1931, for the purposes hereinafter appearing; It is hereby enacted as follows:—

1. This Act may be called the Madras Tolls and Motor Vehicles Taxation (Amendment) Act, 1933.
2. For section 2 of the Indian Tolls Act, 1851 (hereinafter referred to as the said Act), the following section shall be substituted, namely:—

"2. (1) The Provincial Government may levy tolls in respect of—

(a) any road or bridge made, improved or repaired at their expense after the 1st April 1931, and

(b) any bridge made, improved or repaired after the 1st April 1931, partly at the expense of the Provincial Government and partly at the expense of a local body or bodies or jointly at the expense of a local body or bodies, provided that the total expense incurred on the bridge shall not be below such limit, if any, as the Provincial Government may, by rules, determine.

(2) The tolls shall be levied only at such rates and for such period as the Provincial Government may by notification in the Official Gazette declare to be necessary—

Substitutes
section 2
Act VIII of
1911.

Power of
Provincial
Government
to levy tolls
on roads and
bridges.

- (c) in the case of tolls levied under clause (c) of sub-section (1), for the recovery of the amount expended upon the road or bridge or such portion of such amount as the Provincial Government may determine, together with interest thereon at such rate as they may fix; and
- (d) in the case of tolls levied under clause (b) of sub-section (1), for the recovery of the amounts expended upon the bridge—
- (i) by the Provincial Government, and
 - (ii) by the local body or bodies otherwise than from its or their ordinary revenues,
- or such portions of such amounts as the Provincial Government may determine, together with interest on such amounts or such portions, as the case may be at, such rate or rates as they may fix.
- (3) Where tolls are levied in respect of any bridge under clause (b) of sub-section (1), the receipts from the tolls after deducting the expenses on account of the collection thereof, shall—
- (a) in case the bridge is made, improved or repaired solely at the expense of a local body, be paid to that local body, and
 - (b) in other cases, be distributed between the local body or bodies concerned and the Provincial Government in proportion to the expenditure respectively incurred by the local bodies otherwise than from their ordinary resources and by the Government.
- (4) All sums payable to local bodies under sub-section (3) shall be charged on the revenues of the Province.
- (5) The Provincial Government may place the collection of the tolls levied under sub-section (1) under the management of such persons as may appear to them proper; and all

persons employed in the management and collection of such tolls shall be liable to the same responsibilities as would belong to them if employed in the collection of land revenue."

3. After section 8 of the said Act, the following section shall be added, namely:—

Addition of new section 8 to Act VIII of 1931

" 9. The Provincial Government shall have power to make rules regarding the method of collection of the tolls, the manner of distribution of the receipts therefrom, and generally for carrying out the purposes of this Act."

Power of Provincial Government to make rules.

Indian Act II of 1931.

4. Section 14 of the Madras Motor Vehicles Taxation Act, 1931, shall be omitted.

Repeal of Section 14, Madras Act III of 1931.

STATEMENT OF OBJECTS AND REASONS.

Section 14 of the Madras Motor Vehicles Taxation Act, 1931 (Madras Act III of 1931) restricts the power of the Provincial Government to levy tolls under the Indian Tolls Act, 1891 (VIII of 1891) to roads and bridges which are made or repaired by the Provincial Government at their expense since the commencement of Madras Act III of 1931. Tolls can thus be levied only in respect of roads or bridges which are made or repaired at the expense of the Provincial Government. If a local body makes or repairs a bridge with the aid of a grant from Government or of a loan, tolls cannot be levied. There seems to be no reason why the expenditure incurred by local bodies in such cases should not be recouped by the levy of tolls. It is proposed to repeal section 14 of the Madras Motor Vehicles Taxation Act, 1931, and to amend the Indian Tolls Act, 1891, so as to give power to Government to levy tolls where a bridge is constructed or repaired at the expense exclusively of a local body or bodies or partly of a local body or bodies and partly of the Provincial Government and not by the local body or bodies. The levy is to be restricted to the recoupment of the expenditure actually incurred together with interest thereon and is not to be made for the purpose of augmenting the revenues either of local bodies or of the Government. There has been taken as guideline to make a minimum limit of expenditure which should be reached before the levy of tolls on bridges can be sanctioned. The rate and the

period of levy of the tolls will be determined by a notification in the Gazette, while the period of collection of the tolls and the manner of distribution of the receipts will be settled by rules made under the Act.
